PROJECTS

Todo App

[Link](#)

Built a task management application using React and Redux for state management. Features include adding, editing, and deleting tasks with efficient state handling and a clean, responsive UI.

MPCB Landing Page

[Link](#)

Designed and developed a modern, responsive landing page for Maharashtra Pollution Control Board using HTML5, CSS3, and Bootstrap. Focused on clean layout and visually appealing design.

Airbnb Clone

[Link](#)

Built a responsive Airbnb-style web app using React, Node.js, Express, and MongoDB. Features include listing browsing, login system, and responsive design.

Weather App

[Link](#)

Built a weather forecast app using React and OpenWeather API to display real-time weather data for different locations.

CERTIFICATE

Certificate of Completion

[Link](#)

Excited to complete the Delta Full Stack Web Development course by Apna College! Learned HTML, CSS, JavaScript, Bootstrap, Tailwind, React.js, Node.js, Express.js, MongoDB, and SQL.
